Honokong, November 9th, 1905.

WHEN His Excellency the Governor said in September last that the Government was fully alive to the necessity for a continuous policy in the matter of the resumption of insanitary property, we remarked thereon that the community would be interested to learn what that policy was to be. Yesterday | The Band was a great pleasure, and sincere there was issued an elaborate " report on the insanitary property resumptions in the years 1894-1905," which lets us into the secret of) how matters stand at present; although it does not appear to us to promise a policy \ entitled to be characterised as strictly "continuous"-not until the completion of the extensive water supply schemes at present in hand, at any rate. But we take it on Railway matters to that Board. Mr. Jeme that no dissatisfaction will be expressed, so | Tien-you is a member of the Chinese Educational eminently reasonable are the lines as laid Mission to the U.S. in 1872 and well qualifield down by His Excellency. The Trust recommended by Sir H. A. BLAKE is not to be established for some time; and probably will be finally abandoned; so that the manner of its fermation, is not now expected. The superficially excellent idea that such an important work as the re-modelling of congested areas should be delegated to a special body, funded with the proceeds from land sales, does not commend itself to the Governor, who would rather "leave the tendering of advice as to the areas or buildings to be resumed and the utilization of the resumed areas to the members of the Government responsible for its sanitary measures and for the utilization to the best advantage of Crown lands." This opinion occurs in a letter to the Hon. ALFRED LYTTELTON, Colonial Secretary, in the course of which, while entirely concurring and other interesting scenes.

with the view "that a considerable sum should be devoted each year to the resumption of insanitary property, and that this resumption should proceed on continuous lines," he expresses the opinion that it is not desirable to fix the amount to be set aside for the work. To introduce into the Estimates the principle of allocating special receipts to special expenditures would, he points out, admit of various logical extensions; and if it were laid down that for so many years so much money must be allocated for resumptions, requests for the massacres, which have been suspensions of the order would be inevitable. This latter will hardly be denied by anyone who has followed the financial course of Hongkong. It would mean that the natural programme now suggested (i.e. the Governor to suggest each year as large a sum as he thinks can be conveniently appropriated) would still be followed, but under the gratuitous difficulties incidental to the evasion of a cut-and-dried plan. Nothing big can be undertaken in any case until after the water-supply is assured; the lines of the resumption scheme have already, been sketched by Mr. O. Chabwick and Dr. J. W. Simpson; the Sanitary Board has dealt with minor details of the work; in view of these things, His EXCELLENCY does not support the Trust proposal, which was advocated by both | Sir H. A. BLAKE and the Hon. Mr. MAY (while administering the government). On (general grounds it could be objected to, literary pursuits. also; if the Legisletive Council cannot be trusted with su ch an essentially vital part \$16.50 of its duty, it can be trusted with none; and we may as well have a bureaucratic system of Government at once, with many Trusts and Committees overlapping and Per Doz, clashing one with another. The Secretary of State for the Colonies, Mr. LYTTELTON, replies that he agrees generally with the GOVERNOR'S views on the matter; and so, ... 12.00 we presume, will most of those who were 13.50 at one time tickled with the grandeur of

Taotai Jeme Tien-you (Chan Tien-yu), a graduate of Yale University, Sheffield Scientific Department, A. M.I.C.E., London, and Superintending Engineer of the Peking-Changchiakou (Kalgan) Railway, now building, has been appointed by the Shangpu as Special Adviser for his new post.

How many persons, asks a contributor to a contemporary, have troubled to inquire the meaning of the red band which invariably runs down the centre of a Chinese envelope? The information we asked for, concerning the Chinese mourning being white, that colour is regarded as unlucky, and the white envelope accordingly not only barred with report lined with the same, which is a colour associated with particularly good fortune. This may be a wrinkle for those who have correspondence with Chinese not to use white paper.

We have received from Messrs. W. Brewer & Co. Part 28 of the Japan Chronicle's Diary of the Russo-Japanese War. The pictorial part of this number contains a series of excellent half-tone blocks, which have been produced in a fashion creditable alike to the makers of the blocks and the printers. One full-paged picture shows the Russian mine-tender Amur as she was blown up in the dock of the eastern harbour at Port Arthur, while smaller ones display the Tungki Kwan Fort, captured by the Japanese,

CANTON.

[FROM OUR CORRESPONDENT.]

7th November.

LINCHOW MASSACRE ENQUIRY. I am informed that Wen Taotsi has been ordered by Vicercy Shum to proceed to Linchow to investigate the sad affair. I understand Wen Taotai is going there with the American Consul General, and Mr. Snewin, Reutor's correspondent. The party is leaving Canton this afternoon or to-morrow morning.

NINETY-THREE INCOMPETENTS. Sometime ago Viceroy Shum memorialized the throne against forty civil and fifty-three military officials declaring them to be avaricious and incompetent. On the let inst. a telegraph edict was received by Vicercy Shum authorizing him to deal with those officials in accordance with the memorial despatched. That is to say that Vicercy Shum is empowered to cashier, banish, degrade or temporarily dismiss them from the service. They are of

The Lieut.-Colonel at Ching-Yuon has shot himself by accident. It is said that to amuse himself be fired a shot at some hard substance, the bullet rebounded and struck him in the chest, and he has since died.

THE PATH OF REHABILITATION. The provincial judge, Ching Yu-lok, who was degraded three steps for showing leniency towards Deputy Cheong who had tortured an innoceut prisoner to death, has now been recommended to the Throne by Vicercy Shum The 2.95 guns of the H.K.S.B.R.G.A. will for promotion. The robbers retreated towards captured. The villagers chased these desperadoes The Royal Standard will be unfurled on the as far as the Fatshan, railway station, where they dispersed. One of the villagers was wounded in the melee. If resistance was shown in every village visited by robbers their number would soon diminish.

NEW DAILY PAPER FOR CANTON. A new native newspaper will shortly appear here. It will be called the Kok-Chi-Po. The first issue will be published on or about the 20th inst.

AN INTERESTING BIEGE. A large band of robbers arrived in the Sin-Tong village by two steam launches and entered the principal pawnshop of the place. As they were about to leave the villagers arrived in great numbers and surrounded the building. A railway-station being close by, a message was immediately sent to the nearest military station, by the railway telegraph. A strong force soon arrived on the scene and are assisting the villagers to capture the robbers. Three of the robbers, who attempted to force their way through the ring of soldiers and villagers, were captured. The others have barricaded themselves in the pawnshop and will not come out. On the other hand, the besiegers are afraid to go in. The steam launches left as soon as they saw there was going to be trouble and the robbers will no doubt be starved out of their fortress. The position is curious, indeed, and

His Lordship-The question is- Are these affidavits sufficient to warrant me to set aside the order I made last week? It is not clearly shown that this property belonged to the concubine. If I were to express a centrary opinion I should be held to be receiving definite evidence that it is the property of the concubine. That I do not. There are a certain number statements put ferward to show where the property was, but these are not conclusive and not altogether satisfactory, more especially with regard to the claim of the concubine. I think the order must stand. That order was made on the 2nd November, and I don't see any necessity for varying it. The evidence must be supplied to the Crown in ten days, and it is for the Crown authorities to decide what is the value of that evidence:

A PARTNERBHIP. Ho Sui Kai sued Ho Kai for \$122, being money subscribed to a partnership and prefit due to plaintiff. Mr. Beavis appeared for plaintiff; and Mr. Master for the defendant, who raised a cross action. It appears that plaintiff and defendant entered into a partnership for the performance of a certain work, the plaintiff contributing \$77.9) as capital and the defendant putting in labour and material. Eventually the work was completed, and its total value was found to be \$416. The defendant then went to plaintiff, who was entitled to have that sum divided between the defendant and himself, and giving him a statement, said-" Will you go and instruct a solicitor to write for this money?" That same evening defendant came and asked him to wait, as he had arranged for payment, producing a promissory—note-from the party for whom the work was done end of that time plaintiff applied to the defendant for the money, when the latter replied-"Yes, I have had the money. It has been made clear to the Governor, and the BEFORE MR. A. G. WISE (PUISNE JUDGE.) matter has been considered in the Executive Council. Accordingly, this resolution is now put before you with the object of relieving the Company of unnecessarily running these cars at what is considerable cost to them. I am reminded that when this resolution was introduced it was intended that it should only be tentative. We did not know how it would work and the Council guarded itself against anything like an indication of a permanent intention to keep the Company to the obligation to run these cars by putting in the words "until further notice." If it be found necessary at any time to renew this resolution, that can be done under the powers of the Tramway Ordinance. I move that we now

rescind the original resolution. The COLONIAL SECRETARY seconded. The Hon. Dr. Ho Kai-Before the resolution is put I should like to ascertain whether the Tramway Company have advertised or done promising to pay within a week. At the comething to make it known generally that workmen's cars were run at certain hours for the benefit of workmen, mechanics and labourer. One of the conditions of the confendant put off plaintiff from time to time, cession to the Tramway Company was to have a certain number of trams running night and morning for the benefit of the workmen who live at the extreme ends of the town. If After hearing the parties, his Lordship the fact be known to these people and they do not make use of it, then the resolution is proper, but if there is a doubt

about the matter, I think it would be a serious thing for us to rescind our resolution. As this report that Finance Minutes Nos. 49 to 57 me it has been ascertained upon that point approved. I beg to lay the report on the table what has been done by the Company, otherwise I shall have to ask the Council to postpone the resolution until that fact has been ascertained. I think it is only due to the workmen and the public generally these cars should not be stopped running until we ascertain that those for whom they were intended do not use them

The Hon. Mr. R. SHEWAN-Perhaps I can assure the hon member. I represent the agents of the Company. The manager has assured me he has done his best to notify the public at each end of the line that these workmon's cars are running, but there is absolutely no demand for those cars. I cross-questioned him before I came to the Council and he told me the workmen did not avail themselves of the facility. His Excellency-The cars are marked

"Workmen's Cars?" advantage being taken of them. Of course the Company can resume this service, but at present there is absolutely no demand for it, as the men prefer to live on the spot rather than travel backward and forward to their work.

The ATTORNEY GENERAL-The fact that there are workmen's cars is a matter of public \$350,000 plus half the proceeds of land sales, as notoriety. The cars are placarded "workmen's | proposed by the Committee that reported on cars" and I don't know whether we can expect the Company to do any, more than that.

The Hon. WAI YUK.-I would suggest that the resolution be postponed until the facts are ascortained.

INSANITARY PROPERTIES RESUMPTIONS.

The following correspondence was published in a report submitted to the Legislative Council yesterday.

GOVERNOR SIR M. NATHAN TO MR. LYTTELTON. Government House, Hongkong, 26th

September, 1904. SIR, -Mr. May has in accordance with the instructions contained in your Despatch No. 101 dated the 26th May last, placed before me the The Hon. Mr. R. Shewan—Yes. And they have been running all these months without of insenitary areas and the improvement of the City of Victoria.

2. I entirely concur with him that a considerable sum should be devoted each year to the resumption of insanitary property, and that this resumption should proceed on continuous

3. I do not think it would be desirable that it should be laid down either that a sum of the 24th September, 1903, or that a sum of not less than \$400,000 as recommended in Mr. May's despatch No. 150, dated the 9th April, 1904, should be devoted to resumptions. With regard to the first of these proposals I am adverse to the introduction into the estimates of the principle, which, if introduced, would admit of various logical extensions, of allocating a special source of receipts to a special object of expenditure; and with regard to the second I am convinced that were you to lay down any standing instruction for the allocation for a period of years of a large sum for resumptions you would frequently be asked to suspend it. For instance, in the draft Estimates for 1905, it has been necessary, on account of contracts already entered into, to set aside \$750,000 for water supply scheme and \$535,500 for continuing the erection of important | Dr. public buildings that have been commenced. These sams, together with \$359,800 for some smaller continuation services, and a few minor works of sanitary and other urgent necessity, bring up the total Public Works Extraordinary His Excellency-Do you think there is a Estimates to \$1,645,300, and it has been considered that \$170,000 is the minimum sum that can be added to this Estimate for compensation and resumptions of insani- To amount spent on resumptary property under the Public Health Buildings Ordinance of 1903. Had such a standing instruction as that which has been suggested been in force it would have been necessary either to have asked for its suspension, or to have raised additional taxation to meet the wants of the particular year, or to have broken contracts and stopped the execution of the important works, in hand, or to have undertaken no other works, however important or urgent. I think that for the present it must be left to the Governor to suggest each year is large a sum as he thinks can conveniently be appropriated and profitably spent on resump-

tions and compensations. 4. In the circumstances hat no sum can be set aside for resumptions on a very extended scale, at any rate until the extensive water supply schemes are completed in 1906, that the lines on which resumptions should be carried out are to some extent already indicated in Mr. O. Chadwick and Dr. W. J. Simpson's Report of the 14th May. 1902, on the question of the Housing of the Population of Hongkong, and that various reports that are received from the Senitary Board contain specific recommendations for minor resumptions, I do not at present support the proposal for the establishment of a Trust embodied in the Report submitted in Sir H. A. Blake's Despatch No. 485 of the 23rd October, 1903, nor that for an Advisory Board recommended by Mr. May's No.-150, dated the 9th April, 1904. I would leave the tendering of advice as to the areas or buildings to be resumed and the utilization of the resumed areas to the members of the Government responsible for its sanitary measures and for the utilization to the best advantage of Crown

5. For the double purpose of assisting to secure continuity of policy and of collecting data which would govern any large scheme that may be undertaken in the future, propose that there should be continuous records of all the resumptions undertaken. These records would consist of a Special Annual Report prepared by the Director of Public Works, and printed as a Sessional Paper which would show on a general map the position of the areas that have resumed or are in process of resumption, and on more detailed plans each scheme of resumption, and of re-laying out the resumed area, and the extent to which each scheme had been carried out by the end of the year dealt with in the Report. It would show also the proportions of each resumed area originally and ultimately devoted to streets, laves, and open spaces, and to Government purposes, and the progress that had been made in disposing of the new building lots it contained with the area still remaining for disposal. It would also contain a statement of accounts for each resumption showing the expenditure it had involved up to date, both resumings and for laying out roads, etc., within the resumed area, and the receipts obtained in the form of premia for new building lots, as well as a general account giving the total expenditure and receipts for all the resumptions that had been undertaken up to the end of the year with which the Report dealt

6. If this proposal appears to you worthy of adoption the first Report to be issued for 1904 would deal with the Taipinzshan resumption, carried out in the years 1834 to 1895, embodying the information already communicated to you in Mr. May's despatch referred to above, with the resumption carried out in the year 1902 of the subject of Sir William Gascoigne's despatch resumption recommended by Mr. Chadwick and Professor Simpson in the 4th and 26th para graphs of their report of the 14th May, 1902 and carried out in the years 1903 and 1904 of the interior of the block bounded by Gough Street, Queen's Read Central, Wellington

Street, and Abordeen Street. 7. The comparatively small amount of receipts from the sale of loases within the Taipingshan resumption, and the anticipated small proportion of receipts to outlay in connec-200 tion with the Gough Street resumption, justify the doubt expressed in the 2nd and 3rd paragraphs of your despatch No. 283 of the 18th December, 1903, as to the immediate remunerativeness of this necessary sanitary work.

I have, etc., M, NATHAN

HONGKONG CHESS CLUB.

The annual meeting of this club was held at the Cafe Weismann last evening. Mr. H. E. Polloock K.C. (president), presided, and a number of members were present.

The PRESIDENT stated that members had

before them the statement of accounts for the year 1905, and they would observe from that statement that the balance carried forward (\$161.46) was bigger than before. This increase was due to the fact that the club had no longer to pay any rent for their premises, which should be considered satisfactory. was sorry to say there had been difficulty to persuade people to join the tournaments. During the past summer they had attempted to get one up, but met with such a poor response that it was impossible to hold it. He hoped now the winter had begun that people would be somewhat enthusiastic in the cause of chess with the drop of the baremeter. and that they would have some interesting tournaments this season. The accounts had been made out by Mr. Danenberg, the hon. treasurer, and kindly audited by Mr. T. C.

that they be passed. Lt. Col. Josling seconded the motion, which

was carried unanimously. The following programme for the ensuing season was agreed upon :- A Championship Tournament is to be played, the winner at the conclusion (the best out of three games) to take the prize of \$15. A match of 20 games to be

played, not more than two games against the same player, for a first prize of \$10 and a) second of S5. It was left with the hon. treasurer to arrange if possible for a match against a team from the Clab Lusitano, the team to be adjudged the winners who get the best out of three games. The secretary was instructed to see if he LADIES AND CHILDREN'S could arrange matches with the Club Germania and the Shanghai Chess Club, also with Emphoideries, Laces, Silks, Pongees, players at Canton, while Lt.-Col. Josling promised to see if any teams representing the navy

Baby's Awful Suffering from Eczema - Could Not Hold Her - Tore Face and Arms Almost to Pieces - Grateful Mother Says:

"CUTICURA REMEDIES SAVED HER LIFE"

"When my little girl was six months old, she had eczema. We had used cold creams and all kinds of remedies, but nothing did her any good; in fact, she kept getting worse. I used to wrap her hands up, and when I would dress her. I had to put her on the table, for I could not hold her. She would kick and scream, and when she could, she would tear her face and arms almost to pieces. I used four boxes of Cuticura Cintment, two cakes of Cuticura Soap, and gave her the Cuticura Resolvent, and she was cured, and I see no traces of the humour left. I can truthfully say that they have saved her life, and I should advise any one suffering as she did, to give Cuticura a fair trial. - Mrs. G. A. Conrad, Lisbon, N. H., Feb. 7, 1898."

FIVE YEARS LATER Mrs. Conrad Writes:

"It is with pleasure that I can inform you that the cure has been permanent. It is now six years since she was cured, and there has been no return of the disease since. I have advised a lot of friends to use Cuticura in all diseases

SERIOUS STATEMENT BY A PHYSICIAN.

"I say without hesitation that the cause of one half of women's ailments is constipation Anemia, headache, derangements, irritability, and a host of other maladies all arise from that one root cause! Cure that and you cure one balf of women's ills!" So said a leading physician. This most serious complaint can be oured permanently if bile beans are persevered with. Nurse Baldwin, residing at 106 Bourke Street, Woolloomooloe, Sydney, Australia, says:—"You have my heartfelt thanks for the the rate of 2% per annum on the Daily balance. benefit I have received from bile beans. About seven years ago my health began to break down through overwork and worry. My liver was sluggish in its action, and I suffered from constipation and indigestion, and, finally, debility. Several dectors prescribed for me but I derived no benefit from their treatment. I also tried several medicines advertised as cure for my complaints, but still failed to improve in health. Bile beans were recommended by a friend, and although I had little faith in their doing meany good after all the others had failed, I purchased a box. Their effect was murvellous from the first few doses. and, continuing the course, I was quickly restored to health. Since that time I have never been without bile beans in the house, and have recommended them to scores of my patients; and in each case they have derived too highly of them." Much more might be written to the same effect. The proof of bile beans is in the taking. If you suffer from constipation, or any of the derangements it causes, don't fail to try bile beans. Obtainable from all medicine vendors, but refuse all substitutes.

-Sergeant Aris charged twelve coolies with gambling on a steam launch at Causaway Bay. The defendants were convicted and each ordered to pay a fine of \$3.

WILFUL MURDER. Wong Yuk, on remand, again appeared to answer the charge of killing and murdering one, Lo Chi, at No. 8 Yea Yick Lane, West Point, on the 28th October.

In view of the nature of the evidence pre viously adduced, the police withdrew the charge and the prisoner was dismissed.

MARINE MAGISTRATE'S COURT.

Wednesday, 8th November.

BEFORE MR. BASIL H. TAYLOR (MARINE MAGISTRATE).

NON-OBSERVANCE OF RULES OF THE ROAD. Mr. M. McIver, Inspector of Junks, charged Chan Yau, master of the Navalyard steamlaunch No. 68, with unlawfully failing to observe the rules of the road in the harbour on the 7th

Prosecutor stated that on the day in question he was in the launch Daisy, and travelling from west to east off the Navalyard. The Navalyard launch, of which defendant was coxswain, was leaving the mooring lighter lying at No. 6 buoy, and heading westward when he first saw her on his port bow. Defendant starboarded and made for the camber, trying to cross witness's bows. There was not room for him to do this, so witness went full speed astern and just managed to avert a collision.

Defendant stated that he wanted to get into the new Navalyard camber. He blew two blasts, meaning that he was directing his course to port, and that the other launch was to pass under his stern. He knew that it was his business to keep clear.

His Worship ordered the defendant to pay a fine of \$20, the alternative being one month's hard labour.

KELLY & WALSH'S NEW PREMISES.

The general exodus of European stores from Queen's Road to the new thoroughfares nearer the sea marks a striking change in the history of Hongkong's business life. Old firms, like Clock Towers, may become locally historical, and it is not without a certain amount of sentimental regret that we see such an old friend as Queen's Road being thus deserted, but the old order" has changed and most of the more important retail business firms now conduct their business in handsomely built and lofty premises on the reclamation, in place of the smaller and more or less dark ones so familiar to old residents.

Following Messrs, Watson & Co., Powell & Co., Gaupp & Co., and, more recently, Messrs. Kruse & Co. and Lane & Crawford, Messrs Kelly & Walsh, Ld., have now removed from Queen's Road where for nearly 30 years they have carried on their business as Printers, Publishers and Booksellers, into large, handsome and roomy premises in York Buildings Chater Road, a fine wide road which would be a credit to any city and bids fair to be the pringreat benefit. As for myself, I cannot speak | cipal thoroughfare in the Colony. A visit to their new promises will cause surprise that a move had not been made years before, and no doubt such a move would have been made had there been anywhere to move to.

The stock and fixtures are now seen to much greater advantage, and anyone who wants to kill" half an hour at any time could not do so more successfully than by browsing amongst the large and miscellaneous stock of books, and novelties to be seen there, without unduly straining the eyes. Indeed, did space permit, there is scope and material here for an exhaustive essay on the progress and development of the art of publishing durin g recent years, one of the noticeable features of which is the useful and handy little pocket editions, which, thanks to the improvement in the manufacture of thin and opaque paper, can now be printed so clearly, and which should be appreciated by travellers and also by those whose library space is limited. Cheap paper editions of the popular and standard novels may here be seen in the greatest variety as well as handsomely bound editions of the poets and standard works suitable for presentation. The juvenile portion of the community has been well provided for, judging by the enormous stock of picture books and children's annuals a glance at which brings to our minds a comparison between the intellectual fare provided for the budding generation and that to which we were accustomed in our young days. The large space devoted to stationery of every description both commercial and private indicates Mr. H. W. Looker (of Messes. Deacon | that Messes. Kelly and Walsh are prepared to execute orders in this branch to an unlimited extent. The development of the educational movement in Hongkong, which-has received such strong support from His Excellency the Governor, is marked by the large stock of school books to be seen in the educational department. Naturally, at the present time, Christmas goods are strongly in evidence, and the great variety of Christmas eards with local views [and characteristic scenes of Hongkong, as well as those obtained the stout. It was not part of his duty of European manufacture, cannot fail to relieve the purchaser of any difficulty in making His Worship held the offence proved and a selection. Messrs. Kelly and Walsh are, as is well known, publishers of many important works relating to China, Japan and the Far East generally, such as Mr. Dver Ball's "Things Chinese," and also the same author's indispensable works for the study of Cantonese, Mr. Foreman's standard work on the Philippines, Murray's Guide to Japan, Wade's "Tzu Erh Chi," and many others too numerous to be mentioned here. The printing office has not been removed to the new promises but remains in Duddell Street as formerly. We congratulate Messrs. Kelly and Walsh on the acquisition of such handsome and artistically finished premises, which compare favourably

Far East.

Everyone knows that in the past the Chinese Government have allowed their wounded soldiers, and those who have contracted disease to fare as luck would have it. This shameful state of things is to be remedied. In Canton at least during the present month there is to be opened a new medical college. At first students are to be admitted who profess a desire to undertake this new branch of study. Afterwards those who show little aptitude for their work will be weeded out, and those only retained who are diligent and show abilities. In the matter of this new college, too, we see the growing influence of Japan. All the teachers are to be imported from Japan, and among them are to be some who have studied in Germany and who are familiar with German literature, and can therefore translate German medical books. This is a new departure, but one in the right direction. The way in which the Chinese have in the past treated their soldiers is shameful. On the other hand, says the N.-C. Duity News, Europeans must keep their eyes open and watch all these changes for assuredly they are silently helping to develop a new China quite different from the old

SOCIETY FOR THE PROTECTION OF GAME, ETC., IN CHINA.

A special meeting of this Society was held at Shanghai on Oct. 31. The Society was started in 1899 and has with the energetic assistance of Mr. Rocher Commissioner of Customs in Shanghai at tha time, been the means of inducing the authorities to prohibit the export of pheasant skins. The L Society has also done good work in impressing upon the Municipal Council the importance from a food supply point of view, of regulating the sale of game in the Municipal Markets, and establishing a close season as far as sale was

Mr. W. V. Drummond mentioned the facthat steamers leaving Shanghai often took quantities of game away from the port in the middle of summer-in the breeding season. He suggested that moral pressure be brought to bear upon the agents or representatives of such steamers.

After a short discussion, Mr. W. D. Little proposed and Mr. Cecil Holliday seconded provincial authorities, and to induce it to take That the Society be dissolved and that the the necessary remedial action. funds in hand be handed to the Shanghai Gun Club with a request that they accept the same and therewith endeavour to carry out the objects for which the Society was formed. The resolution was carried unanimously.

SERIOUS CURRENCY QUESTIO

New Kwangtung cents appear to be circulating in Hongkong now in much greater number, and it is to be hoped that we are not to suffer as Shanghai seems to have done, according to the following letter in the N. To-day \$1 changes for 1,050 cash, and these coins are worth over 10 cash each, i.e., within eighteen months the value of the currency employed by almost the entire population of this empire has depreciated no less than 25 per cent, and 12 or 13 cash are required to-day to purchase what could be obtained for 10 cash a year and a-half ago, and if the information given me be correct there is no knowing when this depreciation will end. It is stated that so long as the ratio of exchange does not fall below 140 to 150 of these 10-cash pieces to the dollar, the provincial mints will find it profitable to coin them. The prospect of a possible further enhancement of 50 per cent in prices is appalling, in view of the distress which must inevitably result to natives and foreigners alike, and it would seem that active steps should at once be taken to impress on the Central Government the suicidal character of the policy being followed by the
